STATEMENT FROM AMERICAN MOTORS

On the 23rd of November 2021, Boss Capital Holdings released a statement stating that SCD Remanufactured Vehicles will cease Left Hand Drive to Right Hand Drive conversions on all RAM product as of June 30, 2022.

<https://bosscap.com.au/2022-automotive-direction/>

American Motors has had a close relationship with SCD to perform conversions on our vehicles for a long time. While the news is disappointing, both companies will continue their growth and total customer satisfaction well into the future. American Motors will focus on RAM, F-Truck, Dodge and GM offerings just as we have done in the past.

American Motors will continue to offer RAM product beyond June 30, 2022 and will continue to have full support for all RAM customers well into the future. Nothing will change for any past, current, or future customers. We will also continue to support all SCD, AUSMV and ASV customers after the cut-off date just as we have always done.

Happy Motoring,

Nick and Alex Watson

American Motors
